The Kit

The back end of a solo business, ready to install.

You're on the waitlist. The kit opens in spring 2027, after I've run it on my own business through the first quarter. The waitlist hears first, with the price and the numbers from those 90 days in one email.

01 **Operating manual template**
One rulebook every tool reads first: roles, hard limits, deal steps, tags.

02 **Bot setup**
Role prompts and daily routines for four assistants: chief of staff, pipeline, deal desk and content.

03 **Follow-up blueprints**
CRM follow-up plans with the email copy, timing and triggers written out.

04 **Prompt library**
The full set, by assistant and by task, ready to copy.

05 **Setup guide**
Step by step, in order, with the mistakes I made and the fix for each.
