## THE LIFESTYLE EQUITY REVIEW

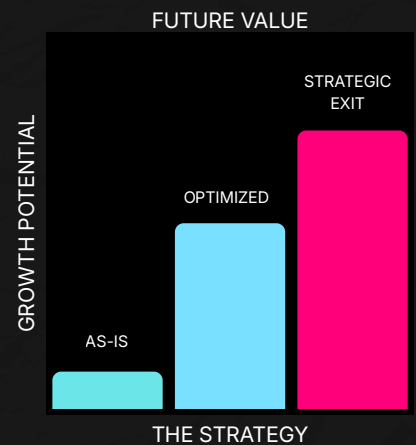

Most homeowners only look at their property's value when they are ready to sell. My clients look at it every year. The Lifestyle Equity Review is a forensic, data-driven audit of your home's position within the Naperville/Plainfield growth corridors. We don't just look at "Zestimates"—we look at infrastructure shifts, micro-market velocity, and equity optimization.

Benchmarking your home against the S&P 500 and local market velocity.

Identifying the strategic tipping point for your next legacy move.

Aligning your sanctuary with 5 and 10-year wealth goals.
