What the numbers are telling us

Hillsborough is the busiest of the three counties, and it's quietly tightening. Closed sales rose 2.4% while active listings fell almost 14% — fewer choices than last summer, but nothing is flying off the shelf either.

At 3.7 months of supply, with homes closing near 97% of their original asking price, this is a genuinely balanced market. Buyers still have room to ask for repairs or a rate buy-down.

Hillsborough neighborhoods

01 South Tampa

Hyde Park, Palma Ceia and Bayshore — bungalows and new builds side by side, Bayshore Boulevard for morning walks, dinner five minutes away. The most walkable corner of the county.

02 Westchase

Northwest county, master-planned in the nineties: sidewalks, a golf course, a village-style town center and an easy run down the Veterans to the airport. Suburban without feeling far out.

03 FishHawk Ranch · Lithia

Southeast county, built around trails, pools and Newsome High. Newer homes and more square footage per dollar — with a real trade-off: you're 40 minutes from downtown.

SCHOOLS

Hillsborough County Public Schools earned an **A district grade** from the state in July 2026 — its first in more than a decade.

Newsome High	Grad rate 99%+
Plant High	#2 in county
Steinbrenner High	#3 in county

Rankings: PublicSchoolReview 2025–26. District grade: FLDOE, July 2026.

What the numbers are telling us

Pasco cooled off this year. Single-family closings fell 10.7% and homes are taking 40 days to go under contract — the longest of the three — while prices still nudged up 1.3%. Sellers here compete with a lot of new construction.

Translation for buyers: this is where your leverage is. About \$55,000 cheaper than Hillsborough at the median, often for a newer, larger house.

Pasco neighborhoods

01 Wesley Chapel

The fastest-growing address in the county: master-planned communities off SR-54, an outlet mall, an ice complex, hospitals and a stack of new schools testing six points above the state average.

02 Trinity

West Pasco, tucked between the Suncoast Parkway and Pinellas. Golf-course neighborhoods, a short hop to Tarpon Springs and the Gulf, and Mitchell High's 97% graduation rate.

03 Land O' Lakes

The middle ground — older established neighborhoods, lakes, bigger lots and acreage, and the shortest Pasco commute into north Tampa.

SCHOOLS

Pasco graduates **91%** of students — three points above the Florida average — across 30 public high schools.

What the numbers are telling us

Pinellas has turned back toward sellers. Single-family sales are up 3.9%, the median price jumped 5.5%, and homes go under contract a full week faster than last June — while active listings dropped more than 17%.

It's a peninsula, so nobody is building their way out of it. Expect to move quickly, and to see competition on anything well-priced near the water.

Pinellas neighborhoods

01 St. Petersburg

The most walkable city on this side of the bay. Bungalow neighborhoods like Historic Kenwood and Old Northeast, murals and galleries downtown, the Pier, and a restaurant scene earning Michelin attention.

02 Dunedin

A genuinely small downtown you can walk end to end, breweries, the Pinellas Trail running straight through it, and the causeway to Honeymoon Island at the edge of town.

03 Palm Harbor

North county, leafy and quiet, built around one of Florida's top-ranked public high schools, with Honeymoon Island and Tarpon Springs both minutes away.

SCHOOLS

Pinellas holds an **A district grade** — one of only two districts in the region to earn one, two years running.

St. Pete Collegiate	#61 in Florida

GOOD TO KNOW

Things to sort out before you move

None of this is scary — it's just Florida-specific, and it's what surprises people moving here from somewhere else. Pick the two or three that apply to you and let's talk them through properly.

- Hurricane prep and evacuation zones
- Flood zones and elevation certificates
- Homeowners, flood and wind insurance
- Roof age and whether it's insurable
- Impact windows and mitigation credits
- Property taxes and the homestead exemption
- No state income tax — what that changes

- CDD fees on newer communities
- HOAs, deed restrictions and what they cover
- Condo milestone inspections and reserves
- Well versus city water, septic versus sewer
- School zoning and choice deadlines
- Bridges, tolls and real commute times
- New construction versus resale trade-offs
