# Prep your home *for fall*

Don't let your house turn into a haunted one! Tackle these October maintenance musts before spooky season is in full swing

## October Home Maintenance Checklist:

☐

### **Do a Mid Season Hurricane Check**

Review your emergency hurricane supplies and test generators. October is still peak hurricane season, and a power outage is scarier than any haunted house.

☐

### **Prune and Fertilize Landscaping**

Give plants a boost before cooler temps and trim back anything crowding your roof... because falling branches are no treat.

☐

### **Clean patios, driveways and siding**

Pressure wash away mold, mildew, and summer buildup, and get porches looking great for fall décor (and trick-or-treaters)

☐

### **Change air filters**

Florida A/C systems work overtime; keep airflow clean so the only thing spooky in your home is Halloween decorations.

☐

### **Inspect Outdoor Grills and Fire pits**

Make sure they're ready for tailgating or cozy fall nights... perfect for roasting marshmallows, not ghosts.

☐

### **Look for pest entry points**

Seal cracks and gaps before creepy crawlers try to move in for the chilly season.

☐

### **Declutter garages & sheds**

Clear out summer gear and make room for holiday décor because skeletons belong in costumes, not your storage closets.

☐

### **Service your pool equipment**

Clean filters and balance chemicals as swimming slows down—no one wants a swamp monster pool.

☐

### **Flush your water heater**

Remove sediment buildup after heavy summer use to keep hot showers flowing (no cold shower frights here!)

☐

### **Stock Up on Pest Prevention**

October often brings an uptick in spiders, ants, and rodents seeking warmth. Make sure the only webs around are the fake ones you hang for Halloween.
